The Bard's voice, accessible to every student

Whisper · ChromaDB · Claude · edge-tts

What is ShakespeareBot?

The problem

Students spend hours searching for context about Shakespeare across books, articles, and scattered notes — with no interactive, reliable source.

The solution

A voice-powered chatbot that brings Shakespeare to life: students speak their question and receive a response in text and audio, in the Bard's own voice and style.

Domain expertise

Trained exclusively on Shakespeare's works and art history texts

RAG Architecture

Retrieves real passages before generating — no hallucinations

Immersive experience

Speaks back in Elizabethan style via neural voice synthesis

ShakespeareBot

Voice-Powered AI Chatbot that Speaks as Wiliam Shakes:peare
